It takes almost fifteen minutes before you even get to the first tank battle (which was quite atrocious in itself), before that it's walking around and talking to people and a bad story. Did they think they were making the next Half-Life here? I just wanted some quick tank action. Don't bother.. i really thought this game had multiplayer as i assumed the iphone version had one, so i bought 2 copies. what a disappointment. other than that, good game for 5 bucks. Great platformer to play when you have some spare time. Simple yet very fun and gives a challenge. Was trying to move a rock and hit myself with it and launched myself off the map. 10/10. So ... I reinstalled steam. And when I came back to the game wghich I reinstalled too ... All my Skins , wins , and stats were gone can somebody help me ?. Nice game. Has potential. Needs some polish. Maps. And more players.. I was unsure to give it a try at first, then I install it and updated my sound, network and usb 3.0 drivers, after that I noticed improvements in games. Great tool.

This game is very much like a throwback to toejam and earl, but different. Alot of the same rules apply. I have MANY fond memories of that game, so my hats off to the peeps who made this. My son and I have been faithfully watching Adventure Time from the beginning of the series. My son thinks it's just a cool show while I, being and old man in my mid 30's, gets the D and D references and many other adult themes. My opinion of the game is slighty biased. Hell, I even liked "explore the dungeon" because the green fairies boosted imagination! And they said this is a kids show..... very ragey

. This game is actually more "Megaman X" than the "Metroidvania" claims. Stages are stand alone stages you can revisit at any time once you complete them. A fun game either way and a bit challenging on Hard for boss fights until you get some super powered items way later or respond incredibly well (or eat all your carrots).

Exploration and finding items among backtracking after you find abilities to find more items is really prevalent in this title. A plus or minus for fans of those.

I only found a few of the lines to be funny from all its quirky dialogue. Some of the music was pretty great, too.

The driving stage is still kind of a pain, though. For the rest, they seem fun enough. More of a pain for achievements. It's easier by difficulty, though.

As an ending note, leave at least one of all your food items if you want the collector achievement or you can play through it all again... Nice and worth starter pack just dont buy this before you have gotten a little used to the game. No one's playing this game
